

Genesis Physical Medicine and Rehabilitation Sharing Our Outcomes for 2021

We are extremely proud of the number of our patients who have increased their independence in our inpatient rehabilitation program. Changes in independence are measured using the IRF_PAI Functional Quality Indicators, which assess how well patients can manage daily tasks such as dressing, transfers, and walking.

Patients functional activities are measured when they arrive (admission) and throughout their stay in inpatient rehabilitation. By the time patients leave the rehab program (discharge), we expect an increase in Functional Gain in the range of 40-50 points. Our overall target is 45.3. Below is information on the types of patients we see, their length of stay in the program and their functional gains.

 Diagnosis	Number of Those we Served	Average Length of Stay (days)	Discharge Rate to Home or Community Setting	Discharge Rate to Skilled Nursing	Unplanned Transfers to Acute Care	Functional Improvement Gain
Cardiac	31	10.2	77.4%	6.5%	16.1%	44.8
Multiple Trauma	9	10.3	100%	0%	0%	64.5
Neurological	41	13.0	80.5%	7.3%	9.8%	49.6
Brain Injury	83	11.8	74.7%	12.0%	13.3%	48.2
Orthopedics	90	10.5	83.3%	6.7%	10.0%	52.1
Spinal Cord Injury	39	15.4	79.5%	7.7%	12.8%	54.5
Stroke	162	14.5	74.1%	13.6%	11.1%	47.9
Amputation – Lower Extremity	17	11.3	76.5%	11.8%	11.8%	41.2
General Rehabilitation	116	9.4	82.8%	3.4%	13.8%	49.7
ALL PATIENTS ALL DIAGNOSES	588	12.1	78.7%	8.8%	11.9%	50.1
 	Total Patients Served	Average Age	% Male	% Female	Average Number of Treatment Hours/Day	Patient Satisfaction with Services
All Patients & All Diagnoses	588	68	55.6%	44.4%	2.9	78.6%

Of the 588 patients served here in 2021, the overall functional gain attained was 50.1 which is above the expected overall target.

Patient Satisfaction:

Patients who responded to our survey focus question, likelihood to recommend, indicated 78.6%.

Our greatest achievement is in preparing our patients to return home or to a community setting. 78.7% of our patients achieved this successfully!
